

# EnmarkIT

## Planned Onsite Network Infrastructure Services

**Maximize Business, Minimize Risk and Save Money!**

Planned Onsite Network Infrastructure Services: EnmarkIT reduces your costs and manages your Metal Service Center network. Stay up and running successfully without the cost or overhead of an IT staff. Expand your company without expanding your staff.

**EnmarkIT fits your budget Weekly, Monthly, Quarterly, and Di- Annual service.**

EnmarkIT partners with your organization. We manage and support your base IT infrastructure, freeing your staff to focus on your core business

functions. We handle all aspects of your desktops, servers and networks, and bring you onto the latest, most reliable Microsoft platform designed for your business.

EnmarkIT is more efficient. We can take care of all your computer needs. For example, are computer and networking issues taking valuable employees away from their everyday tasks in your company? Many of our software customers have grown exponentially in today's economy and need regularly scheduled on-site network assistance.

EnmarkIT is proactive network support- Featuring frequent on

-site "check-ups," ongoing system validation and rapid response from a certified expert who knows your network- EnmarkIT is the only way to lessen the impact of a technical failure and minimize or eliminate potential network downtime.

**Do I really need onsite computer and network services?**

Yes! From desktop PCs and printers, to file-servers and communications equipment, your business depends on technology. Proactive IT support is your key to preventing network failures that can impact your productivity and bottom line.
